

West Green Playgroup

Mission Statement

We have developed a guiding set of principles and aspirations for what we want to achieve at West Green Playgroup, and they are defined in our Mission, Vision, and Aims statements below.

OUR MISSION

West Green Playgroup is a free flow setting. We believe the children are our curriculum and strive to empower our children to take on the world with curiosity, confidence, and positivity.

OUR VISION

We will strive to meet our mission statement by focusing on three themes.

Understanding the world

We will give our children the opportunity to learn about their environment and the natural world. They will learn to understand their role in shaping the world around them and develop a greater understanding of their local community.

Understanding ourselves

With fun and happiness at the core of everything we do at playgroup. We will help the children to understand and manage their own emotions through role play, books, and interactive learning.

Understanding our health and wellbeing

We will promote good health through healthy eating and drinking and give an understanding of the importance and enjoyment of exercise. This will be achieved through the children's interests and our daily routine.

OUR AIMS

- We will strive to instil independence, self-confidence, and a love of playing and learning.
- We will endeavour to provide a happy and relaxed atmosphere where children can have fun, make friends, and learn.
- We will provide a friendly and welcoming environment where children can develop socially, emotionally, and intellectually within the context of play, both independently and with others.
- We will establish a close working relationship with parents/carers and within the local community.
- We will develop our staff team, resources and methods making changes as required to ensure we progress successfully into the future.
- We will ensure equality of access regardless of social or economic background.
